

Newest and Improved!

AlloChrome 4,200+™

Now with over **4,200 HOURS** of Salt Spray Protection

Stop Bleeding Your Bottom Line!

Alloy Fasteners has done it AGAIN!

As part of our continuous improvement program, we have enhanced our AlloChrome coating. Alloy Fasteners was first to the market with a solution to your bleeding problems and continues to lead the way.

Introducing **AlloChrome 4,200+™**, the clear choice for **SUPERIOR CORROSION RESISTANCE**. This improved AlloChrome has surpassed the 4,200 hour mark in independent salt spray testing! Best of all, you get this new superior product at **NO EXTRA CHARGE**. Alloy is your obvious choice for quality and service.

Samples, Independent Test Reports and Pricing are available upon request.
